Résumé / Michal Kechner
Senior Front-end Engineer

Senior Front-end Engineer with a focus on web standards and robustness. Solving problems by thinking and making, from idea to execution. Clean Code, TDD and RWD lover. Good Typography fan.

Over 10 years of experience building digital projects for some of the biggest brands in the world including ABB, Aegon, American Express, BP, British Standards Institution, Canon, FIBA, Mazda, NetJets, Seat, Small Luxury Hotels and many others.
